ERB Upper Level ISEE

Congratulations on taking a practice ISEE®! The experience of taking an ISEE®, combined with a thorough analysis and review of the test, form the core of any successful test-preparation program.

A practice test allows for a tutor to see a student's testing skills under exam conditions. Then, a tutor is able to review and improve upon those skills. Whether a student is taking the initial practice test or a follow-up exam, the same fundamental principles apply.

A complete ISEE® consists of five Sections: Verbal Reasoning, Quantitative Reasoning, Reading Comprehension, Mathematics Achievement, and an unscored Essay. There is no deduction for wrong answers on the ISEE®, so students should avoid leaving questions blank. Students receive separate scores in each of the four testing areas. There is no "composite" score. The ISEE® Essay is ungraded and is sent to schools as a writing sample.

The Scaled Score is a way for test makers to report the results of different test forms. The Scaled Score range for all sections and levels of the ISEE® fall between 760 and 940.

Below is a key for the ISEE® Score Report:

Question	Student Answer	Difficulty	Type
Green = Incorrect	'A-D' = Incorrect/Your Answer	1 = Easy	MC = Multiple Choice
Blue = Omitted	'-' = Omitted	2 = Medium	
White = Correct	'+' = Correct	3 = Hard	

The Item Type and Difficulty Analysis indicates relative performance across subjects, difficulty level and sections. Such analysis allows you to assess, for instance, your performance on Sentence Completions versus Long Passages, or, more specifically, how you did on medium Sentence Completions versus difficult Sentence Completions.

The Category Performance Graphs show relative performance on specific categories within subjects. Is Subject-Verb Agreement a particular area for development within the set of Writing skills tested? Did you correctly answer 100% of the Triangle questions, but only 25% of Perimeter and Area questions? These graphs should inform your content-specific preparation.
